---

Independent commercial advisor and Non-Executive Director, with a career founded in enterprise software — from start-up through IPO to global scale. Brings analytical rigour, independent judgement and direct sector knowledge to complex commercial situations: stripping out noise, identifying what matters, and delivering conclusions that stand up to scrutiny.

---

## NON EXECUTIVE

*Board-level and advisory roles — independent commercial counsel, governance and mentoring.*

### Independent Commercial Advisor

PRIVATE CLIENTS | UK | 2019–PRESENT

- Providing personal commercial counsel to founders, CEOs and senior leaders — called on when someone needs an honest, independent view from a person with no agenda other than getting to the right answer.
- Advice drawn from direct experience of how software and technology businesses are really built — commercially, operationally and organisationally.
- Equally comfortable as a sounding board, a mentor through a difficult decision, or a critical voice when a plan needs stress-testing.

### Non-Executive Director

BRITANNIA GARMENT PACKAGING | UK | 2013–2016

- Chaired the board, introducing stronger governance across finance, risk management, and performance oversight.
- Opened new markets and secured major retail clients through sharper business development strategy.
- Mentored the CEO through three successive years of balance-sheet growth, building his confidence and commercial judgement.

### Independent Commercial & Strategy Advisor

GOLDSBROUGH CONSULTING LTD | UK, EUROPE, USA | 2003–2019

- Conducted independent commercial assessments and due diligence reviews across businesses of widely varying scale — from early-stage start-ups to multi-million-pound firms — delivering clear, independent findings including where conclusions were uncomfortable for management.

- Worked across technology, finance, health, education, and manufacturing sectors in UK, Europe, and USA, engaging with diverse management structures and ownership types.
- Translated findings into tangible improvements: clients became more focused, more profitable, and operationally stronger — achieving accelerated growth, improved stability, or successful transitions under pressure.
- Mentored owners and senior leaders throughout engagements, building their capability to make better decisions and sustain improvements independently.

---

## EXECUTIVE

*International software leadership — product strategy, marketing and professional services.*

### European Marketing Director

INFORMATICA | EUROPE | 2001–2003

- Brought on board to build and scale European marketing, hired and mentored high-performing teams across multiple countries covering marketing communications and lead generation.
- Personally led media and analyst engagement across Europe, doubling positive media coverage and building market credibility for Informatica's newer product portfolio.
- Achieved 150% of lead generation targets across the region.

### Vice President Marketing, EMEA

HYPERION | UK, USA, EUROPE | 1989–2000

- Joined as head of UK professional services, transforming customer engagement into a best-practice model — developing and mentoring the team whose approach was adopted by worldwide distributors.
- Selected personally by the CEO to relocate to global HQ in Connecticut, working in product marketing with responsibility for core products and close involvement in product direction and M&A decisions.
- Returned to Europe as VP Marketing EMEA, building and leading a pan-European team spanning product marketing, competitive intelligence, and marketing communications.
- Present throughout the full journey from a 50-person sector underdog to IPO in 1991 and on to a \$500m global market leader — with deep inside knowledge of how enterprise software businesses scale commercially.

---

## COMMUNITY

*Volunteering to make good things happen.*

### **Business Mentor** | [TECH MANCHESTER](#)

- Mentored founders of early-stage software companies through the COVID pandemic — helping them refine business models, sharpen their investment narrative, and prepare for funding in an environment of acute uncertainty.

### **Business Mentor** | [THE PRINCE'S TRUST](#)

- Mentored young entrepreneurs to gain confidence and build sustainable business models.

### **Chair of Networking Group** | [MANCHESTER CHAMBER](#)

- Revitalised member engagement and increased attendance by 50%.

### **School Governor**

- Led campaign to ensure the future of a local school; enhanced oversight of governance processes.

### **Charity Trustee**

- Drove tight management of financial and legal affairs for community charity.

---
